Responsibilities for IIHF Videographer 2019/2020

The camera must be placed in line with the red line. Recording of the actual game must start no later than when the on ice game officials have stepped on the playing surface. In between periods and after the game the recording can be stopped when the on ice game officials have left the playing surface.

The game footage from one period (when the on ice officials have entered the playing surface and until they leave) must be continuous footage that contains all on ice action both in game and during stoppage in the action.

All events that take place on the playing surface, both during play and during stoppage must be recorded and focused on. The videographer must follow the puck and the game action on screen.

According to league rules the match recording shall be uploaded to the IIHF's (Hungarian Ice Hockey Federation) video server within 72 hours after the game.

Access to the server can be requested through the competition committee on the following email address: versenybirok@icehockey.hu

In cases that the Coach Committee and / or the Disciplinary Committee may consider necessary Commission, upon specific request, the upload shall be completed within 12 hours of the request.

The minimum requirements for the game footage:

1. the name of the video recorder must be recorded in the official game sheet
2. HDR (720p) quality – recommended FHD (1080p 30-50fps) quality
3. The footage should not shake (a stand should be used)
4. upload a match in one file
3. The filename should contain the following:
 - -the number of the game (U14 127)
 - -short hand name of the teams (UTE MAC)
 - -match date (20180926)

U14 127 UTE MAC 20180926

The videographer must do everything in their power to record the best possible quality of the game.

If the match video does not meet the requirements of the IIHF and the ERSTE Liga the home team must improve on their video recording equipment to bring in a more capable videographer.
